

## VR Tracking Pebble Kit – Installation

1. Set up SteamVR environment.  
See <http://store.steampowered.com/steamvr>, <https://partner.steamgames.com/vrlicensing> for SteamVR system setup reference.
2. Download the render model: <https://github.com/virtualbuilds?tab=repositories>
3. Copy the render model folder into your SteamVR “rendermodels” directory:

4. Start SteamVR, and power on your Pebble Kit by holding down the **POWER** button for ~2 seconds and releasing.

5. That's it! Your Pebble Kit should be tracking and visible in SteamVR now.
